

## Message from TRI

“Project management team based at Thrombosis Research Institute, London would like to thank all the investigating sites for their continued hard work and interest in the Garfield-AF registry.

The current operational priorities for the project include:

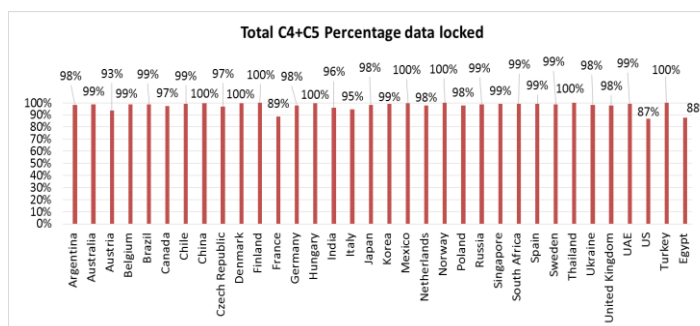

- Addition of patients into follow-up extension phase (follow-up beyond 24 Month)
- Resolution of any additional data queries
- Completion of ACTS questionnaires

## Data lock Milestones for July

TRI and Quintiles team would like to thank you for your hard work and dedication towards the registry that has enabled us to achieve over 92% of data locked for all the major milestones. The locked data will be used for all the data analysis for the upcoming year

Please find below the global overview:

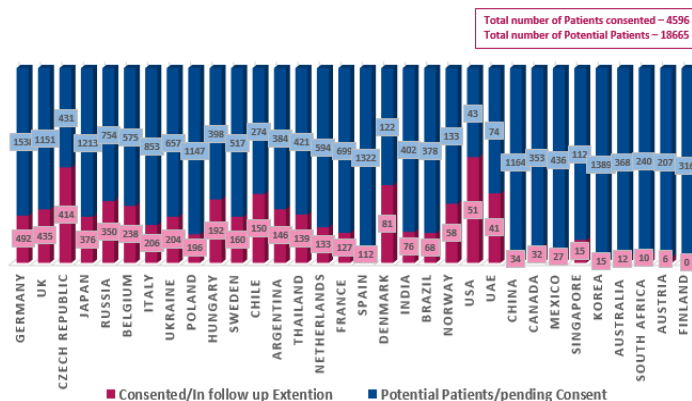

## Follow up Extension

We encourage all our investigators to enter patients in the extended patient follow-up beyond 24 months. The data entry for all events are significantly reduced as only one yearly follow-up is required. The investigator site will be financially compensated annually for this.

So far we have 4,596 patients entered in the follow-up extension phase.

Please see below the global representation of Follow-up extension:

Please get in touch with your site managers if you are unsure about how to enter patients into follow up extension.

## Anti-Clot Treatment Scale Questionnaire

Please remind and encourage patients to fill in their questionnaires for each milestone.

Re-supply of ACTS questionnaires must be requested when your stock level falls to 5 booklets or less. To order additional questionnaires at the site please contact your site managers. Expect 2-3 weeks for delivery.

## Garfield Website

Take time to explore our NEW Garfield-AF Registry website which offers a range of engaging and valuable content for Community members.

To view resources, we are delighted to provide you with a log-in access to the community page of the website:

Website: <http://af.garfieldregistry.org/>

Community page: <http://af.garfieldregistry.org/community>

Username – Your email address (as originally registered with the TRI website)

Password – garpass01

Once you are logged in you will be prompted to change your password. If you have any technical issues, please contact us and we will address the issue as quickly as possible.

## Contacts

For any support you need please contact your site managers.

If you have any suggestions for ways in which TRI can further support you, please contact us at the email below: [TRIGarfieldsupport@quintilescontact.com](mailto:TRIGarfieldsupport@quintilescontact.com)

In case of specific issue or any suggestions, please contact TRI Garfield-AF project management team directly at the email: [Garfield@tri-london.ac.uk](mailto:Garfield@tri-london.ac.uk)
